

Vehicle capacity guide

What vehicle do you need ?

This is a general guide which can be used as an initial indicator to which size vehicle you may need. All dimensions are approximate and based on empty vehicles. All width dimensions have taken into account space for wheel arches.

Please note that CitySprint operates various makes and models of vehicles whose dimensions and capacity may differ from those shown below. If you need further guidance for a specific booking, please contact your local service centre. For a full list of service centres, please visit our website: citysprint.co.uk/locations.

Our couriers

Our professional couriers are DBS (Disclosure & Barring Service, previously CRB) checked and kitted out with the latest technology, including GPS tracking units, giving you real-time status updates as your delivery is made.

All goods should be correctly packed and the value of goods in excess of £1000 should be declared at booking.

* Although this vehicle type is longer, generally the weight capacity is less than a 3.0m (LWB) van. Please advise your local service centre if the weight of your item(s) is over 1000kg. This vehicle also isn't available in all regions (Scotland).

** Limited availability of this vehicle. Not available in Scotland.
